

ESTANDON

L É G E N D E

There are many secrets behind the creation of this exceptional wine.
Its composition combines the best terroir and its most beautiful vines, from the land of Provence where the sun shines more than 300 days per year.

The work and passion of our vine growers offer us healthy grapes, harvested at the right maturity. Then, the talent of our winemaker gives us the subtle balance and this extraordinary sensorial experience.
The round and sensual shape of this bottle remind us with emotion of the first “Estandon” bottles, which were served in the nice restaurants of the Côte d’Azur years ago.
