

ESTANDON

LE TEMPS DES VIGNES

Estandon Le Temps des Vignes suggests a parenthesis, a disconnected bubble, where time, calm and contemplative, flows at the rhythm of the cycle of the vine.

The grapes, grown in Correns, first organic village of France, located in the heart of Provence, are pampered and respected according to the rules of organic farming. Occasionally we can see draft horses performing the tillage, slowly, rank after row.

The label and the capsule were designed with materials without plastic and its cap is made with Provence cork, 100% renewable.
